Important Information

- Fire-resistant Dekstone® is steel-reinforced precast concrete, made of cement, sand, rock, and color. Because of its natural ingredients, some variation in color is to be expected and makes each deck unique.
- See manufacturer for colors and finishes.
- Dekstone® specifications:
Size: 2" x 23 7/8" x 23 7/8" – Tolerance: (+/- 1/8") – Weight: 22 lbs per sq. ft.
- Warranty and further installation details are available at www.dekstone.com or by calling 800-572-9029.
